On the design of induction training of government school teachers

"During my time, there was no induction training and it took me many years to understand my roles and responsibilities and the Delhi education system. I consider all new educators in Delhi government schools lucky to have such a comprehensive induction training (by Simple Education Foundation) and I think it will help them immensely in understanding their role and also giving them the right skills and mindsets to handle being a new teacher in a government school. I thoroughly enjoyed facilitating sessions for them which were beautifully designed. This is the first time that an Induction Handbook, with all rules, regulations, government structures, safety and engagement strategies, has been printed for the teachers. Wonderful initiative" - **Suman Yadav, Mentor Teacher**

In quarter 1 FY 2023-24, MIF supported the education of **10 million students, 1.23 million teachers** and **25 fellows (teacher leaders)**. **33 million beneficiaries** have been impacted since 2019 under MIF 2.0
